1 Simple Columns Chart

This section represents a simple columns chart. You can see an evolution over the years of how much percentage of a car's price was associated to it's electronics.

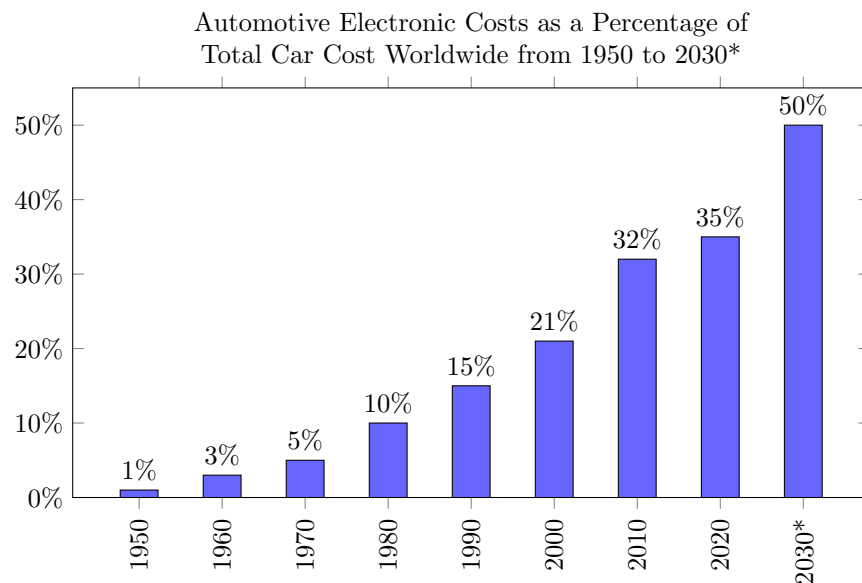

Figure 1: Percentage of the price associated to the electronic cost of a vehicle 1950-2030*. Source: Statista

As you see, drawing a chart is quite simple in LaTeX once you learn how it works.

2 Multiple Columns chart

Here is a graph which shows the units sold and the average price of different automobile brands.

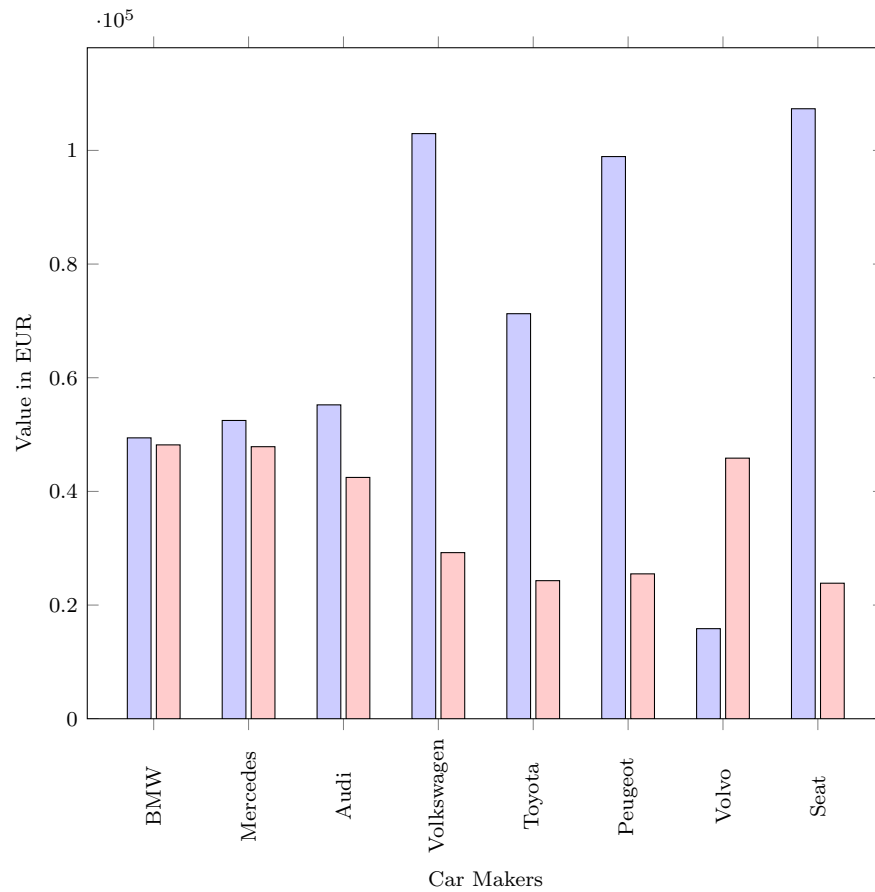

Figure 2: Units Sold (blue \square) and Average Price (red \square).

3 Subfigures with Group Bar

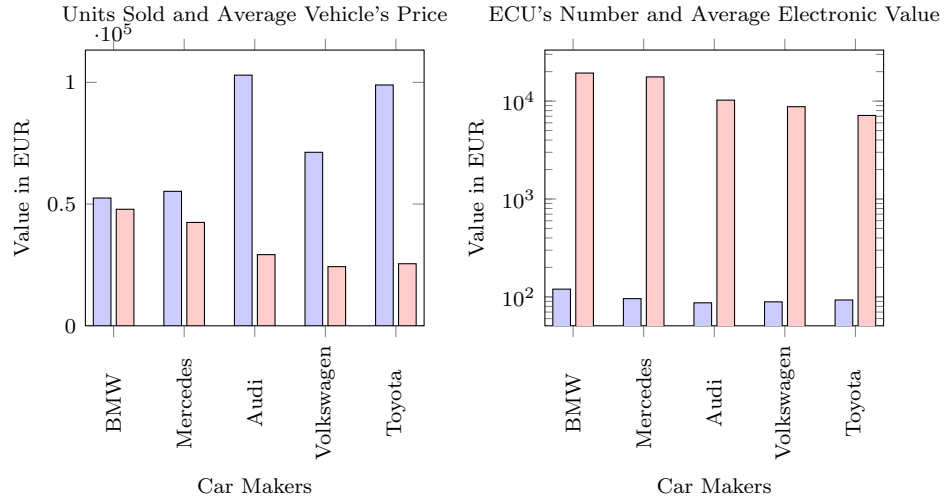

Figure 3: Units Sold and ECU's Number in (blue \square) and Average Vehicle's Price and Electronics' Price in (red \square).

4 To-Do

New graphs will be added in the future.
